

REMARKS

Applicants submit the present preliminary amendment in the above-identified patent application. Applicants respectfully request entry of the foregoing amendments and remarks.

By way of this preliminary amendment, Applicants have amended the first paragraph of the specification to correct and clarify the relationship of the related applications and priority claim of the present application. The amended priority claim is supported by the Application Data Sheet and Filing Receipt of record. No new matter is added by way of this amendment to the specification.

Applicants have also amended the pending claims. Claims 1, 6-9, 11-15, 17-18, and 22-28 are hereby cancelled, without prejudice. Applicants respectfully reserve the right to pursue these cancelled claims in one or more continuation applications. Claim 47 is currently amended to remove the term "is" in order to correct a grammatical error. Lastly, new claims 54-59 have been added and are directed to the hydroalcoholic gel pharmaceutical composition recited in claims 43-48. Support for these claims is found throughout the application, including pending claims 43-48, the original claims as filed, and paragraphs [013] - [0143], [0146], [0152] of the published application. Accordingly, claims 43-59 are currently pending, of which claims 43-53 have been previously deemed to be allowable subject matter. No new matter is added by way of these claim amendments.

Applicants respectfully submit that newly submitted claims 54-59 are also in condition for allowance as the composition was presumably searched by the Examiner during prosecution of allowed claims 43-48. In light of the above remarks, Applicants submit that the application is in condition for allowance, and earnestly solicit timely notice of the same.
